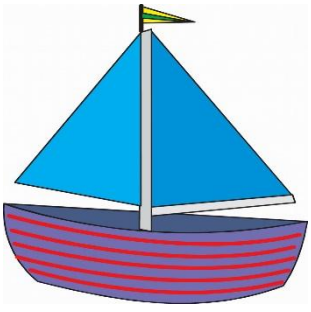
Reception Class
Autumn Term Home Learning Project

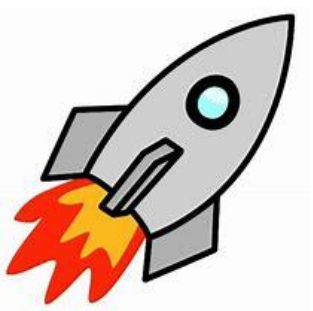
The Jolly Postman is very busy posting letters to all of his friends, but it is a long way for him to travel on bicycle every day.

Can you design and make a moving vehicle that the Jolly Postman can travel in?

Think about what type of vehicle it will be, (a car, scooter, plane, ship or even a rocket!). Decide what colours would be best for your model. You could use reclaimed boxes, tubes, cylinders etc. As we store the vehicles in the classroom, we ask they are <u>no bigger than a shoe box.</u>

This is what you might like to do:

- **Find and collect pictures of different vehicles**
- **Decide what type of vehicle you would like to make**
- **Explore how your vehicle could move**
- **Draw/ design your vehicle**
- **Collect everything you will need to make your vehicle**
- **Make it!**
- **Test your vehicle out – does it move? Can you make it even better?**
- **Talk about the different 3D shapes and the colours used.**




Bring your model vehicle to school in the week beginning Monday 9th November so that we can all see what you have made and maybe even have a go at making it carry the Jolly Postman!
