Year 1, Autumn Term 2

Traditional Tales: Get out of my swamp!

English

Our focus this term is Traditional Tales. The children will be learning what special ingredients go into the perfect traditional tale mixture and about some of these features in greater detail. The two main texts of this term will be: Goldilocks and the Three Bears and The Three Billy Goats Gruff. The children will be sequencing events of a story, retelling traditional tales and even writing their own versions! Why don't you take a visit to the library and see what traditional tales you can find there to read? Parents/Carers, this is a great opportunity to share your favourite traditional and fairy tales from your own childhood with the children. As we approach Christmas, we will be moving on to learning the Nativity story and exploring this through bible stories, videos, drama and song.

RE

What is in our school's name?

- The children will be exploring what a saint is, focusing on St. John the Evangelist.

Who's who in the Nativity?

- The children will explore the different characters in the Nativity story.
- They will consider why the Nativity story is so important to Christians.

RHE

- The children will learn about the NSPCC Underwear Rule and ways to keep themselves safe.
- The importance of online safety and the benefits of rationing time spent online will be studied.
- The children will learn about the importance of rest and the benefits of hobbies.

Science

*Children will distinguish between an object and the material from which it is made.
*Children will use their senses to identify materials and explore the similarities and differences between materials.
*Children will sort materials into groups on the basis of their properties.
*We will investigate suitable materials for different purposes.
*Children will work scientifically by performing simple tests, observing closely and gathering and recording data to help in answering questions.

Geography

- The children will look at a simple map of the local area.
- They will learn about aerial views and look at aerial photographs.
- The children will explore human and physical features of the local area. They will give directions using 'left' and 'right'.

Maths

- Children will develop their understanding of place value within 10
- They will continue to develop their addition and subtraction skills, including solving calculations with missing numbers, commutative law and learning about the inverse. In addition, their number bonds to 10.
- Children will develop their understanding of place value within 20 and their number bonds to 20.
- Children will learn about 2D and 3D shapes and their properties.

P.E.

In PE, the children will continue to develop their listening, co-ordination and movement skills through games with Coach Alex. They will also develop both independent and team skills as they learn and play a variety of sports games.

Design and Technology

- In D&T, the children will be investigating, designing and making a bridge inspired by the story of The Three Billy Goats Gruff.

Music

- Children will explore sounds.
- They will develop an understanding of rhythm and tempo.

Computing

- The children will be identifying different technologies around us and how they help us.
- They will be labelling parts of a computer.
- The children will be learning how to use a mouse in different ways to open a program, click and drag to make objects on a screen.
- They will be learning the features of the keys on a keyboard and how to use it.
