

Home Learning

Next term our Context for Learning is 'Keen to be Green'. There are three different activities based on our context for learning which you can choose between for your home learning project. It is up to you to choose **one** activity. This home learning project is optional.

Activity 1

In this context, we will be looking at the importance of, reducing, recycling and reusing. Think of a creative way to promote this.

Here are some ideas to help you:

- Produce a poster or leaflet.
- Make a model/ sculpture.
- Write a poem, song or rap.
- Write a television broadcast!
- Design or produce an item of clothing with a snappy logo, e.g. T-shirt, badge, banner, hat etc.

Activity 2

Take a piece (or pieces) of household 'junk' and find as many creative ways of reusing it as you can. Make sure you produce a piece of A4 paper illustrating the ideas you came up with.

**Your optional Home Learning Project
is due in on Wednesday 4th
November.**

Good luck!

Activity 3

How do you reduce, reuse and recycle in your own home? Produce a diary/ scrap book or annotated photographs demonstrating how you reduce, reuse and recycle in your own home.
