

Spring Term

Home School Learning Project

Challenge! In the second part of this term we will be learning about 'Under the Sea'. We would like you to design and make an aquarium. Please remember we have to store them in the classroom, so no bigger than a **shoebox** is an ideal size.

What can I include?

- The fish and mammals that live under the sea.
- What do you see under the sea? (Coral, shells, shipwrecks, octopus, seaweed)
- Who might be under the sea? (snorkellers, mermaids, divers)

Chilli Challenge

Can you write about your aquarium you have made?

You can make a fact file or write a story using your imagination.

When does it need to be in?

You can bring your home learning project in anytime from the week beginning Monday 3rd March. If you have any questions, please ask.

Good luck!
